DURATION

i-learning

6 hours**METHODS**Virtual self-paced training on the computer. 6 hours before c-learning

c-learning

5 days

Traditional classroom or practical sessions with tutorials (TAP LAB)

v-learning

Tutored virtual training sessions accessible via an internet connection

MAXIMUM NUMBER OF PARTICIPANTS 12**PUBLIC**

Technicians and Engineers in charge of the installation of the OmniVista 4760

OBJECTIVES

At the end of the course, the participant will be able to:

- Install the Alcatel-Lucent OmniVista 4760 server
- Use the configuration application
- Use the alarms application
- Set up the cost configuration
- Configure the accounting organization
- Use predefined reports

PREREQUISITES

- ACFE level on Alcatel-Lucent OmniPCX Office or Alcatel-Lucent OmniPCX Enterprise
- To have knowledge of Windows

REQUIRED TECHNICAL CONFIGURATION*For i-learning and v-learning*

Access to the Business Partner Web Site. Internet Explorer version 5.5 or better, Macromedia Flash 7 and Acrobat Reader version 6 or better. Virtual Microsoft Java Machine (MSJVM).

PROGRAM DESCRIPTION

Phase 1: i-learning 6 hours

- To describe Alcatel-Lucent OmniVista 4760 applications
- To describe the client and server installation
- To describe the registration of the PCX in the technical directory
- To describe the configuration application
- To describe the alarms application
- To describe the PCX external accounting
- To describe the retrieval of accounting records
- To describe the accounting organization
- To describe the carrier cost configuration
- To describe the use of predefined reports

Phase 2: c-learning 5 days

To setup the OmniVista 4760 client and server

To register the PCX in the technical directory

- Connection type
- Data retrieval

To manage OXE using configuration application

- To manage data tree
- To use of filters
- To export & import grids

To manage the Alarms

- To define filters on PCX
- To use of interface on OmniVista 4760
- Notification by mail

To add an OmniVista 4760 user using predefined access rights

To manage Accounting parameters on OXE

- users, cost centers, external accounting

To manage the accounting organization

- Tree & cost centers
- To apply mask profiles

To manage the cost configuration

- To configure direct & indirect carriers
- To configure the tariffs & the regions
- To configure directions
- To import and export a code book

To manage the reports

- To generate predefined reports
- To export a report, schedule a report generation
- To generate cumulative reports

To maintain the server

- To archive and restore accounting records
- To adapt the parameters of the database purge
- To save and restore the OmniVista 4760 & OXE database

To describe the OmniVista 4760 license control

- To update of licenses
